

4-EVER GREEN

4-EVER GREEN is a proprietary auxiliary nutrient formulation designed for foliar application on intensively managed turf grasses such as golf courses and athletic playing fields. Scheduled spraying throughout the growing season will assure the desired dark green color. 4-EVER GREEN is a concentrated iron product with a biostimulant support that is excellent for both turf types. In turf grass management we must always be concerned with the greening effects of the products we select.

CONTAINS:

- Antioxidants
- Amino acids
- Organic complexes
- Enzymes
- Natural fermented plant extracts

GUARANTEED ANALYSIS

Total Nitrogen	12.0%
Magnesium (Mg)	0.75%
Water Soluble Magnesium	0.75%
Iron (Fe)	4.50%

Derive from: Urea, leather hydrolysate, Magnesium Sulfate, and Ferrous Sulfate heptahydrate

COMPATIBILITY

Never tank mix with phosphates or amines. Always pre-determine spray tank compatibility with standard quart jar method.

APPLICATION

Apply as a light foliar mist in 30-50 gpa (285-475 l/ha). Do not water in or irrigate after application.

GENERAL RECOMMENDATIONS

For general turf use, apply 1.5-3.0 fl. oz. per 1000 f². (45-90 ml per 100 m²). Repeat every 2-3 weeks throughout growing season. For specific iron deficiencies, apply 3-5 fl. oz. per 1000 sq. ft. (90-150 ml per 100 m².) and repeat in 7-10 days.

For intensively managed turf

Suited for both warm & cool seasons
