

TRINITRO-24

TRINITRO-24 is a proprietary formulation consisting of three types of nitrogen, organic acids, enzymes, natural biostimulants, and diterpine-like compounds. It also contains SYNERGIZE-C-3 and ENERGIZE-FE. TRINITRO-24 is designed for warm season grasses and fairways/roughs with a higher cut height. Should never be used on cool season turf under stress conditions.

CONTAINS:

- 3 types of Nitrogen
- Organic acids
- Enzymes
- Natural biostimulants
- Diterpine-like compounds
